## DPXA Students to Screen Animation with Live Orchestra

Earlier this semester, OCAD University's [Experiential Learning Program](#) partnered with the [Toronto Youth Wind Orchestra](#) on a project to create a series of animations that will accompany the live performance of Modest Mussorgsky's *Pictures at an Exhibition*.

Led by **Tommy Truong** (DPXA Alumni) and animated by a group of talented Digital Painting Expanded Animation students, this final animation will be screened with a live orchestra at the Living Arts Centre as part of their season finale performance.
